

Support Us

When you give to the Canadian Foundation for Infectious Diseases (CFID), you are helping create a healthier future for us all. Your gift supports the critical work of Canada’s medical microbiologists and infectious disease specialists and has a direct impact on their ability to identify, prevent, control and treat serious illnesses. Your donation helps protect Canadians and people worldwide from developing, spreading and succumbing to infectious diseases.

Partnering for Novel Solutions in Infectious Diseases

The table below outlines various ways that your contribution could advance research in infectious diseases. Please tell us what you think the most important areas are, or discuss with us an area you would like to help us develop.

Funding Initiatives	Emerging Infectious Diseases	Therapeutic Initiatives	Diagnostic Microbiology	Ambulatory*, STIs, Blood-borne & other infections
Summer Research Studentships	+	+	+	+
Fellowships	+	+	+	+
Innovation & Education Awards**	+	+	+	+
Pilot Grants	+	+	+	+

*Including tropical and geographic medicine

** The Innovation and Education Awards category is designed to serve the continuing education needs of AMMI Canada members and their trainees, by offering opportunities for short-term awards that can be applied to focused areas of study or professional development (e.g., antimicrobial stewardship, clinical or laboratory skills acquisition), or innovative approaches/techniques that may benefit either research or clinical practice.

Why should you, an AMMI Canada member or the Public, support this fundraising initiative?
